

Welcome to **AL ZAMAN**, where vision meets execution. As a best service provider, we take pride in turning dreams into reality. Our commitment to excellence, innovation, and precision ensures that every project is not just built but crafted with expertise. Join us on a journey of reliability, efficiency, and unparalleled success. Together, let's build the future you envision.

ABOUT COMPANY

- Al Zaman Company evolved from Nadeem Trading Est, which was established in 2000.
- Al Zaman has gained vast experience to undertake
 Engineering, Procurement, Installation & commissioning of
 HVAC works of Multi storied Industrial, Commercial, Residential,
 Hospitality buildings, schools & Universities, MOH, MODA sectors.
- Projects executed under renowned clients like ARAMCO, SABIC, SEC,
 MOH, MODA in association with Zamil cool care, Zamil Projects,
 York, Carrier, Babtain, MARCO, El Seif, etc.
- A strong foundation of trust and mutual respect generated through positive relationships with clients, contractors & suppliers made all our projects successful.
- Al Zaman is manned by a team of qualified Engineers, Skilled
 Technicians who are totally dedicated to the highest most
 exacting standards of workmanship, safety & quality to achieve
 best customer services and consistently motivated by need to
 achieve total client satisfaction.
- Services offered are not limited to Engineering & Design,
 Procurement, Installation, Testing & Commissioning of complete
 MEP systems.
- Expertise in executing Retrofit projects of HVAC systems.
- Al Zaman has a MEP Engineering & Design team located in Hyderabad, India, recognized as "Specific Design Consultants".

OUR END USERS

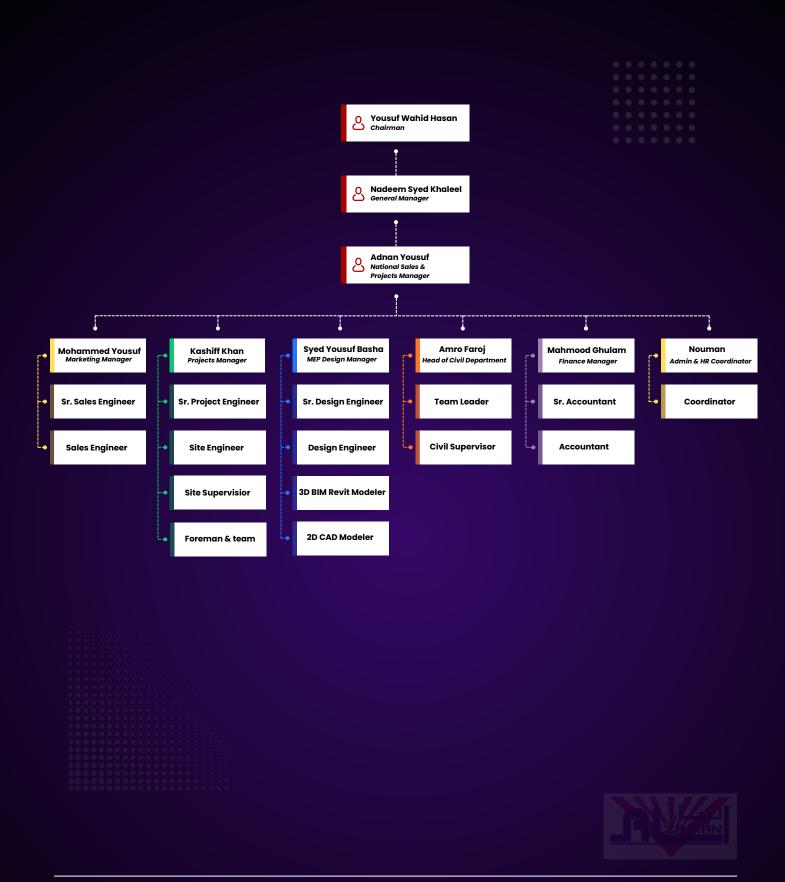

ORGANIZATION CHART

OUR VISION

To be the leading provider of sustainable MEP-HVAC solutions in Saudi Arabia, delivering cutting-edge technology, energy-effecient systems, and exceptional customer service to our clients, while also actively working towards reducing our carbon footprint and contributing to the country's environmental goals.

OUR MISSION

To provide our clients with the highest level of comfort and energy efficiency through innovative, reliable and sustainable MEP-HVAC solutions, while also committing ourselves to the highest standards of customer service, technical expertise and integrity in all our business practices.

0 0 0 0 0 0

QUALITY

Providing the highest quality products and services to our clients while meeting or exceeding industry standards.

SUSTAINABILITY

Taking a proactive approach to reduce our environmental impact and promoting energy efficiency in all our products and services.

INTEGRITY

Conducting business with the highest ethical standards and maintaining transparency in all our actions and decisions.

INNOVATION

Continuously seeking new and better ways to improve our products and services, and staying ahead of industry trends.

CUSTOMER-CENTRIC

Focusing on meeting and exceeding our customers' needs and providing excellent customer service.

TEAM WORK

Showcase a collaborative and inclusive work environment that values the contributions of every team member.

RELIABILITY

Being accountable for our actions and delivering on our promises.

SAFETY

Ensuring the safety of our employees, customers, and the community at all times.

OUR **SERVICES**

MEP Engineering Design

MEP Procurement

MEP Construction

Al Zaman has a Joint Venture (JV) with the Specific Design Consultant for all Engineering & Design related works. Specific Design Consultant is based in Hyderabad, India.

HVAC SYSTEM DESIGN CALCULATION

Al Zaman offers HVAC System Design for Commercial, Residential, and Industrial projects, including Basic/Conceptual Engineering and Detail Design for MEPF-EPC projects. We prioritize optimal indoor air quality through efficient ventilation and filtration, ensuring precise thermal comfort to meet user specifications.

- Chilled Water System Design
- Pipe Sizing & Pipe Routing
- Hydraulic Equipment Selection
- Pump Head Calculations
- Design Basis Report
- U-Value Calculations (Roof, Wall & Glass)
- Heat Load Calculations
- Duct Sizing & Duct Routing
- ESP (External Static Pressure) Calculation
- HVAC Equipment Selection
- Ventilation Calculations
- Smoke Management System

PLUMBING SYSTEM DESIGN

Al Zaman offers the design of a water supply system involves planning and engineering to ensure a safe and reliable provision of water. And excels in drainage system design for diverse projects, including detailed fixture unit calculation, ventilation, traps, interceptors, grease traps and precise pump head calculations.

- Water Supply Fixture Analysis
- Booster Pump Sizing
- Flushing Tank Sizing
- Domestic Water Storage Tank Sizing
- Hot water Heater Sizing Calculation
- Fire Protection Water Tank Sizing
- Flow Rate Calculation
- Pipe Sizing & Pipe Routing
- Pump Head Calculation

- Drainage fixture Unit Calculations
- Waste water Treatment Calculations
- Gray Water Fixture Unit Calculations
- Sump Fit Design Calculation
- Storm Water Calculation
- Venting
- Trap Sizing
- Condensate Calculation

FIRE PROTECTION SYSTEM DESIGN CALCULATION

Al Zaman specializes in innovative Fire Protection Design, providing customized solutions for projects of any size. Our experienced professionals ensure quality design, project management, and seamless integration of client specifications.

- Fire Hydraulic calculation report
- Fire Sprinkler report
- Fire Pipe Sizing
- FM 200 System
- Battery calculations for Fire alarm
- Fire Detection System
- Fire alarm matrix-cause & effects
- Fire Extinguishing System Calculations
- Smoke Control Systems
- Standpipe System Calculations

ELECTRICAL SYSTEM DESIGN CALCULATION

Al Zaman excels in electrical system design for diverse projects, involve a comprehensive set of analyses and computations to ensure the proper functioning, safety, and efficiency of electrical systems in a building or facility.

- Panel board load calculation
- Lighting calculation
- Earthing calculation
- Cable tray sizing Calculation
- Breaker sizing
- Voltage drop calculation
- UPS size calculation
- Battery Bank sizing
- Cable sizing
- Transformer sizing
- Generator sizing
- Amplifier Calculation

DESIGN OF BUILDING MANAGEMENT SYSTEM (SCADA/PLC)

Al Zaman experts in BMS (Building Management System) design, offering diverse solutions for optimal efficiency in building operations. Our expertise encompasses smart control systems for lighting, HVAC, and security, providing a comprehensive approach to building automation.

- BMS arrangement and philosophy
- Details of integration with MEP Systems
- Sequence of operation
- Control Cables schedule
- Control Wiring diagrams
- Termination drawings
- BMS Software details (SCADA/PLC)

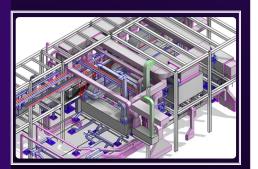

DESIGN REVIEW & VALUE ENGINEERING AND PREPARATION OF SHOP DRAWINGS

- MEPF design review aligns with client information and project specs, following international standards (ASHRAE, SMACNA, UMC, IMC).
- We generate detailed Shop drawings for MEP services, including Plans, Sections, Single Line Diagrams, and Isometric Diagrams.
- Our experience extends to plant room/ Pump room design using Revit— MEP/AutoCAD.
- We also create MEP Revit Templates, 3D/2D drawings, and BOQs for seamless project procurement and site initiation.

ENGINEERING & ESTIMATION OF MEP SYSTEM

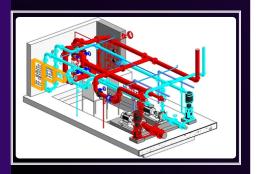

- MEP system engineering involves conceptual design, creating single-line drawings based on design calculations, and implementing value engineering in line with project specifications & international standards such as ASHRAE, SMACNA, UMC & CIBSE.
- The process extends to preparing Bills of Quantities (BOQ) and detailing the project's scope of work for sales to issue RFQ/Bid, ensuring a comprehensive approach from design to project procurement.
- An MEP estimation engineer specializes in HVAC, Plumbing, and firefighting system design and cost estimation.
- They analyze project requirements, prepare accurate estimates within budget, and detail costs for equipment, materials, and labor. The engineer also develops project schedules, outlining timelines for system installations.

SHOP DRAWINGS

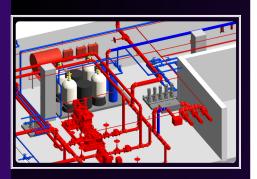

HVAC Drawings

HVAC 3D Modeling display detailed visuals of ducts and chilled water piping, enhancing project understanding and optimizing installation and maintenance processes. Our expertise ensures seamless integration for optimal system performance.

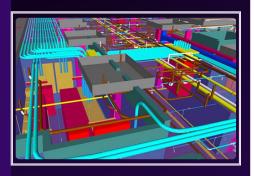

Plumbing Drawings

Our plumbing shop drawings provide detailed technical illustrations of fresh water supply and waste pipes, including dimensions and color-coded fixtures. Offering precision for efficient fabrication and installation of plumbing systems.

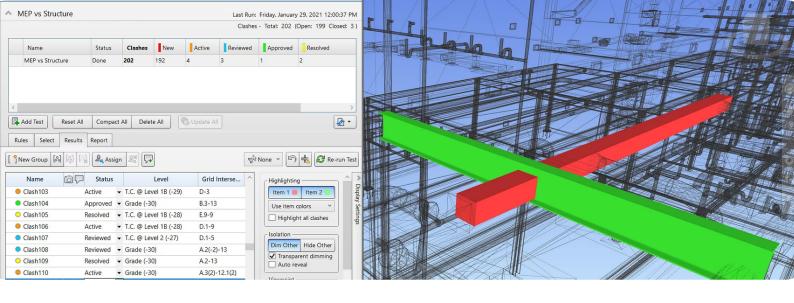

Fire Protection Drawings

3D Fire Protection Drawings clearly show how fire safety systems are set up, helping plan installations effectively. These detailed drawings improve project understanding, displaying the best designs for fire protection systems and ensuring safety.

Electrical Drawings

MEP electrical design drawings include layouts for lighting, cable tray, earthing, and low-current systems. The low-current drawings encompass various layouts, such as Data and Communication Networks, Security and Surveillance Systems, Fire Alarm and Smoke Detection Systems, Public Address Systems, and building automation and controls for HVAC, plumbing, fire fitting, lighting, and energy management.

BIM CLASH DETECTION BY NAVIS WORK

BIM (Building Information Modelling) in MEP systems involves creating collaborative 3D models for efficient design and coordination. It enhances spatial visualization, detects clashes, integrates data for lifecycle management, and enables cost and energy analysis. This approach streamlines construction planning, optimizing the installation of Mechanical, Electrical, and Plumbing systems.

BENEFITS OF NAVIS WORKS FOR BIM CLASH DETECTION:

- Reduced Expenditure
- Reduced Errors
- Reduced Time & Cost
- Innovative Methods
- Improves Efficiency
- Improves Quality

PROCUREMENT

MEP MATERIALS SUBMISSIONS

FOR MAJOR, MINOR & BULK MATERIALS

The design team prepares RFQs based on design calculations and sends them to procurement for selections of major, minor, and bulk materials. Design engineers review and align selections with specifications and approved calculations. The approved materials are then escalated to the project team to start procurement.

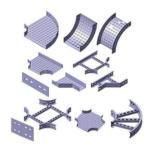

DUCT FACTORY

- Al Zaman company owns a full-fledged duct fabrication workshop based in Jeddah, which is established in 2009.
- Manufactures air ducts meeting ISO 9001:2000 quality standards (TUV Cert in 2004).
- Fabricates ducts to client specifications using following materials like Galvanized Iron, Aluminum, Stainless Steel, and Black Steel.
 - 1. Galvanized Iron
 - 2. Aluminum
 - 3. Stainless Steel
 - 4. Black Steel
- Adheres to standards including SMACNA, DW 144, and Eurovent.
- Sheet thickness ranges from 0.4mm to 3mm.
- Standard duct length is 1220mm.
- Manufactured items are released for shipment only after intensive QC checks to assure the quality & reliability of the manufactured products.

ARCHITECTURAL AND STRUCTURAL DESIGN

- Technology is the cornerstone of AL ZAMAN's services, with Value Engineering we transform visions into tangible structures.
- Our civil engineering expertise encompasses comprehensive design, analysis, and cost effective planning of construction projects, ensuring they are safe, sustainable, Economical and optimally functional.
- Our team of professional engineers employs a systematic approach to tackle complex challenges, from geotechnical analysis to environmental impact assessments and structural integrity evaluations.
- We integrate state-of-the-art software and BIM (Building Information Modeling) tools to create precise blueprints and 3D models, facilitating clear visualization and better decision-making throughout the project lifecycle.
- At AL ZAMAN, we prioritize innovation, exploring alternate materials and methods to enhance durability and efficiency by Value Engineering.
- Our engineering solutions are tailored to meet the unique needs of each client, whether it's a high-rise building, a sprawling transportation network, or vital water management systems.
- We are dedicated to Expanding the boundaries beyond Conventional perception, ensuring that every project we undertake contributes positively to the built environment and raise the standards of construction with utmost safety.

PROCUREMENT

- Procurement at AL ZAMAN is a strategic function that underpins our engineering and construction operations.
- We understand that timely and cost-effective procurement is crucial to the success of any project.
- Our procurement team specializes in sourcing high-quality materials, stateof-the-art equipment, and reliable subcontracting services. We meticulously manage the supply chain, negotiating with vendors to secure the best prices without compromising on quality.
- Our procurement process is underpinned by rigorous due diligence, ensuring compliance with both local and international standards. We employ advanced procurement methodologies, such as just-in-time delivery and vendor managed inventory, to minimize waste and meet the desired construction timelines as planned.
- Our experts conduct thorough market research and leverage long-standing industry relationships to anticipate potential supply challenges and mitigate risks. By integrating procurement with project management, AL ZAMAN ensures that every aspect of the project is synchronized, from the initial planning stage through to successful completion of a project.
- Our goal is to deliver value added services to clients, ensuring that every dollar invested contributes to the creation of robust and enduring, safe and sustainable infrastructure.

2 MAN

CONSTRUCTION

- Construction/Operations is the phase where AL ZAMAN's Meticulous planning and preparations materialize into physical reality.
- Our construction management team orchestrates the complex symphony of activities on-site, ensuring projects are completed with highest standards and specification, within budget, and on schedule.
- We employ a workforce that combines skilled labor with technical expertise, capable of executing intricate designs with precision.
- Safety is paramount in our operations; we adhere to stringent health and safety protocols to protect our workers and the public.
- Our construction methodologies are informed by lean principles, aiming to maximize efficiency and minimize waste of resources.
- We utilize modern construction technologies, such as modular construction and prefabrication, to accelerate project timelines and enhance quality control.
- AL ZAMAN's construction portfolio showcases a breadth of structures, each bearing the hallmark of our commitment to excellence.
- From the initial groundbreaking to the final touches, our focus remains on delivering structures that are not only aesthetically pleasing but also resilient and adaptable to the evolving needs of their users.
- Our construction legacy is built on a foundation of trust, integrity, and an unwavering dedication to transforming the landscapes we build with utmost care.

TESTIMONIALS

Babtain Contracting Company E-mail: maged@abc.sa.com

23-15169-120532 28 November 2023G (018 Jumada I 1445 H)

Contract NO.: 4400018456/00 Expansion of Aindar Sub-30 380/115kV BSP.

Attention : Maged Abdel Aziz, Project Manager

Subject: Prequalification For HVAC Subcontractor.

Reference: Contractor Letter NO. AINDAR/EHVPD/MAA/23-023

With reference to above subject and cited letter, please note that company has reviewed the submitted PQ documents of M/s AL-Zaman for Specialized Contracting Company (HVAC System Works) for captioned project and found it technically Acceptable with below mentioned comments.

- All the activities for the project shall be completed within the stipulated time as mentioned in Appendix B.
- Contractor/Sub-Contractor shall follow and comply with the requirements of SEC 5 Star ISO 45001 OHS Management System at all times.
- SEC Standard shall be followed all the time, if any deviation occur company reserve its right to take action.

The final approval however, will be after its commercial evaluation acceptance.

This is for your information and further necessary action.

LETTER OF APPRECIATION

This is to certify that M/s AL-ZAMAN FOR SPECIALIZED CONTRACTING COMPANY holding C.C.R Number (4030131053) has successfully completed the projects of ELECECTRO MECHANICAL Works as mentioned below: -

- 1- AL-BIJADIYAH 132/33/kV S/S # 8608
- 2- SAJJIR 132/33kV S/S # 8810
- 3- RAWAQ 132/13.8kV S/S # 8841
- 4- AL-ARTAWAYAH 132/33kV S/S # 8525
- 5- THADEQ 132/33/kV S/S # 8524
- 6- BURAYDAH CENTER-2 132/13.8kV S/S # 8845

The performance of M/s AL-ZAMAN FOR SPECIALIZED CONTRACTING COMPANY on these projects above was found excellent and they had maintained a high quality in the work and accomplished the entire job in accordance to relevant standards like SAES, SMACNA and ASHRAE etc. We have no hesitation to recommend M/s AL-ZAMAN FOR SPECIALIZED CONTRACTING COMPANY for any kind and capacity of ELECTRO MECHANICAL works.

This certificate is being issued for satisfaction, it may serve them best we wish them all the best.

Yours faithfully, For Zamil Projects
